Marketing Strategy

OVERVIEW

Market Research

Market research involves creating buyer personas to understand the target audience, conducting competitor analysis to assess the competitive landscape, and delving into the client's products and services. Buyer personas provide insights into customer needs and preferences, enabling tailored marketing strategies. Competitor analysis helps identify strengths, weaknesses, and market opportunities. A deep dive into the client's offerings helps understand unique selling points and develop effective messaging. By combining these research components, businesses gain valuable insights for informed decision-making and successful market positioning.

03

What Sets You (and us) Apart

Cost:

Our pricing (marketing, web, and branding services) is lower than any other agency

Transparent:

No contracts so you know exactly what you're getting when you sign up with us

Knowledgeable:

We provide technical creative solutions to any problem from our diverse staff of creative engineers

Creative:

From our graphic designers, to our web developers, to our marketing team, all team members work to think differently to make you stand out

Passionate:

We are continuously learning to ensure you're staying up with industry trends - It's just what we love to do!

Caring:

We want our clients to succeed, we're invested in all of them the same way they are invested in all of us

Fun:

The only thing brighter than our colors are our personalities

Services

What are the core services of your business?

We're able to analyze these services and how they differentiate you amongst your competitors.

Keywords & Hashtags Research

Keyword Research involves identifying and analyzing specific words and phrases that users are searching on search engines. Optimizing your keywords will improve your SEO, and help you to align better with your users' searches. Our keyword research involves:

- Identifying Relevant Keywords
- Analyzing Search Volume
- Assessing Keyword Difficulty
- Understanding Search Intent
- Providing Recommendations based on our findings

Once we have completed keyword research we will be able to optimize your website to perform better through updating website content, blogs, and other online materials to improve search ranking.

Hashtag research involves identifying and analyzing specific hashtags on social media platforms (Meta, Twitter/X, LinkedIn) that would increase your posts visibility to increase your overall levels of brand awareness and further enhance overall recognition to engage new users.

- Identifying Relevant Hashtags
- Reviewing Hashtag Popularity Providing Niche Hashtags relevant to your brand
- Monitoring Hashtag Performance
- Providing Recommendations based on our findings

Once we have completed hashtag research we will be able to improve your social media's performance by creating engaging content that resonates with your target audience.

Content Creation

Content creation involves utilizing the brand's colors, fonts, logos, and overall vibe to create compelling and visually appealing content and imagery. By aligning with the brand's visual identity, the content maintains consistency and reinforces brand recognition. The aim is to entice engagement on social media platforms by crafting content that resonates with the target audience. This includes developing themes that align with the brand's values, target market, and marketing goals. These themes provide a framework for creating relevant and engaging content that appeals to the intended audience. Through effective content creation, businesses can establish a strong brand presence on social media, attract attention, and encourage meaningful interactions with their audience.

Educational Marketing Tips – 4 Google Ads Alternatives

With Google Ads becoming more saturated, did you know that there are other platforms that could prove better for the market you are trying to reach?

You can find a larger B2B audience on LinkedIn, less competition through Microsoft, create more brand authority on Quora, and capture top-to-bottom funnel users through Apple.

Start diversifying your ad platforms to get the most out of your advertising and marketing.

Working Together

At Vigilante Marketing, we prioritize a partnership approach with our social media clients. Producing quality content requires collaboration, information, imagery, feedback, and client approval. We work closely with clients, incorporating their brand guidelines, messaging, and objectives into our creative process. By leveraging their input and providing relevant imagery, we ensure the content aligns with their brand identity. We value client feedback throughout the process and involve them in the review and approval stages. Together, we create impactful social media campaigns that engage their audience and drive results.
